02692-232142, 98244 76042, 74900 20751, 98242 76142

SALIENT FEATURES :

1. Highly Energy efficient puff insulation significantly minimizes losses.
2. The Flue baffle maximizes heat absorption in the flue tube by minimizing air movement in the heater.
3. Fully Automatic control shuts of the gas, once the pilot burner is extinguished either by operator or by accident.
4. Imported energy saving gas control and cut-off mechanizes ensure absolute safety.
5. Three convenient thermostat setting at your finger tips (Warm, Hot, and Very Hot).
6. Accordingly you get water at pre-set temperature throughout 24 hrs. A day. No need to fire or extinguish the burner.
7. Simple robust construction using heavy gauge steel tanks for longer life.
8. The size of water connection provided ensures full-flow delivery to the fixture.
9. No need of any hazardous electrical controls.
10. Inner tank is coated with anti corrosive paint.

Model Capacity in Liters.	Recommendation for Connections				Diameter (Feet)	Height (Feet)
	No. of 1/2" Hot Water Connection	No. of Persons (User)	Cold Water Inlet Ø	Hot Water Outlat Ø		
050 Ltr.	1 to 2	2 to 4	1"	1"	1'-3"	4'-4"
100 Ltr.	2 to 3	5 to 7	1"	1"	1'-3"	5'-0"
150 Ltr.	4 to 5	8 to 10	1"	1"	1'-4"	6'-1"
255 Ltr.	6 to 10	11 to 13	2"	2"	2'-0"	6'-3"
300 Ltr.	11 to 15	14 to 20	2"	2"	2'-0"	7'-3"
500 Ltr.	16 to 30	21 to 30	2"	2"	2'-3"	7'-3"
700 Ltr.	31 to 50	31 to 45	2"	2"	2'-9"	7'-3"

One year full value Guarantee

if the tank will leak within one year of installation, we provide either free repairing or complete replacement at our option. Customer would bear all the transport & incidental expenses both ways.
